Desktop telephones are to be answered promptly.

Staff will assess the caller's need(s) to eliminate unnecessary transferred calls.

- If staff assess the caller should be transferred the staff will remain on the telephone until the call is answered (warm transfer).
- If the call is answered by voicemail staff will provide the caller the options of leaving a message or providing the direct telephone number should they wish to call back.

Employees will maintain a personal outgoing voicemail message and update it when the employee is scheduled to be away for more than one (1) day. All greetings at a minimum should include name, date and alternate contact.

The following sample script can be used for general outbound voicemail message:

- Hello, thank you for calling, you have reached <employee name>, <employee title>. I am unable to take your call at this time. Please leave a message and I will return your call as soon as possible. If you require immediate assistance, please call <alternate's name> at <extension>. Thank you.

The following sample script can be used when the employee will be away:

- Hello, thank you for calling, you have reached <employee name>, <employee title>. Please be advised that I will be away from the office <from XX date to XX date> and will return all calls and emails

as soon as possible. If you require immediate assistance, please call <alternate's name> at <extension> Thank you.

If the feature is available, staff will place their telephone on "Do Not Disturb" (DND), when not available so incoming calls go directly to their voicemail.

Every reasonable effort will be made to adhere to this standard including Departments / Divisions who experience high call volumes from time to time.

5.1.2. Written / Fax Correspondence Standards

Staff will respond to written / fax correspondence as soon as possible but no longer than five (5) business days, unless special circumstances require additional time.

5.1.3. E-mail Correspondence Standards

A response to e-mail correspondence is to be provided within two (2) business days. If additional information is required, an acknowledgment of the e-mail is provided including a date the response / information can be anticipated. This standard applies to both internal and external e-mail received.

Staff are expected to set-up their "Out-of-Office" notification when scheduled to be away for one (1) or more days during the employees' normal work hours. An alternative contact person will be provided as part of the automatic reply.

For security reasons, staff should always state in their automatic reply that they are out of the office even when they are away on vacation.

The following sample script can be used when the employee will be away:

"Thank you for your email. I am currently away from the office until (enter date). If you require immediate assistance, please contact _____@scugog.ca and someone will contact you as soon as possible.

Staff are to use the Corporate signature template.

5.1.4. In-person Visit Standards

Staff are available during the core business hours of their department to manage customer inquiries and requests.

Customers are to be served in the order that they appear. The only exception is for customers who have scheduled appointments with Township staff. Where front counter staff are responsible for managing both walk-in as well as customers on the telephone, walk-in customers should always be responded to directly and given priority. Telephone calls are then to be responded to as soon after as possible.

This document applies to all persons who deal with members of the public on behalf of the Township of Scugog, whether the person does so as an employee or agent of the municipality. The application of this document is also relevant to all persons who participate in the development of Township of Scugog policies, practices and procedures guiding service delivery. Township of Scugog staff are to be trained on how to provide customer service to people with disabilities in accordance with the core principles of the AODA, 2005 and Accessible Customer Service Standard.

The Township of Scugog will make reasonable efforts to ensure that its policies practices and procedures are consistent with the following core principles of the AODA, 2005 standard:

- **Dignity and Independence**
- **Integration**
- **Equal opportunity**

By considering these principles when developing policies, practices and procedures, accessibility planning becomes entrenched within the decision making process and satisfies the spirit with which the AODA, 2005 was enacted.

5.2.1.1. Dignity and Independence

Customer service will be provided in a manner that respects the dignity and independence of people with disabilities. People with disabilities should not be forced to accept lesser service, quality or convenience as a result of their disability. Service delivery must consider how people with disabilities can effectively access and use services provided. Awareness and respect of any individual is paramount when providing customer service.

5.2.1.2. Integration

Service provision and associated procedures will be inclusive of all customers and clients, in order to allow people with disabilities to benefit from the same services, in the same place and in the same or similar manner as other customers.

There are occasions, however, when customer service must be provided using alternative measures. Alternative measures will only be employed when a service cannot be integrated and is the only means of providing customer service to a person with a disability.

5.2.1.3. Equal Opportunity

Persons with disabilities will be given an equal opportunity to use and benefit from all services provided by the Township of Scugog. People with disabilities shall not be required to put forth a greater effort in order to access, use and / or benefit from a service. As a result, additional services may be extended to people with disabilities in order to ensure that there is no need to put forth a greater effort.

The Township of Scugog is committed to being responsive to the diverse needs of all its residents by eliminating barriers and providing accessible,

quality customer service, in a manner that respects dignity, independence, integration and equal opportunity.

5.2.3. **Communication**

Communication will be provided in a manner that takes into account an individual's disability. Consideration is given to the way in which individuals express, receive and process information without making assumptions about a particular disability. Individuals with the same disability may process information in different ways. The Township of Scugog will continue to review the nature, manner and methods with which it communicates to people with disabilities in an attempt to improve the accessibility of information and services.

5.2.4. **Notice of Temporary Disruptions**

Temporary disruptions to services or facilities are a reality; however, they can create additional barriers for people with disabilities. In an effort to minimize the impact of temporary disruptions, public notice will be provided for anything that may reasonably prohibit or limit use of a service or facility by a person with a disability. Such notice may relate to facility renovations or construction including maintenance to elevators, accessible pool lifts, washrooms etc.

Whether or not a disruption is predetermined or unplanned the departmental manager, program / facility coordinator or individual otherwise responsible will post a Notice of Service Disruption onsite and notify the Manager of Communications and Strategic Planning and all other relevant front line staff.

Notice will be posted in a conspicuous place on the premises in which the disruption has occurred or will occur. Entrance doors, hallways leading to the disruption area as well as an adjacent service desk are optimal locations. Where applicable, public notice will also be posted on the Township's website and communicated by various other means as deemed necessary. The content of the Notice of Service Disruption shall contain the following information:

- Any alternative facilities or services available
- Additional information such as a contact person or time with which the notice will be updated may also be included where reasonable

People requiring service animals are permitted to be accompanied by a service animal when in areas open to the public, except where excluded by applicable law (e.g. *Health Protection and Promotion Act, 1990* or the *Food Safety and Quality Act, 2001*). Where a service animal is excluded by law, the Township of Scugog will make reasonable efforts to ensure goods and services are provided by alternative means. A customer who is accompanied by a service animal shall be considerate of the health and safety of themselves and others.

5.2.6. Support Persons

People with disabilities are permitted to be accompanied by a support person in any area that is open to the public. If a person with a disability requires the accompaniment of a support person, the Township of Scugog will ensure that both persons are permitted to enter the premises at the same time and that the person with a disability is not prevented from having access to the support person while on the premises.

Township of Scugog staff may offer assistance or accompaniment to a customer when necessary to protect the health or safety of the person with a disability or the health or safety of others on the premises. In some cases, it may be necessary for the support person to provide consent to regulations specific to the service provided or, if necessary, agree to a confidentiality clause. All personal information will be collected in accordance with the *Municipal Freedom of Information and Protection of Privacy Act, 1990* (MFIPPA). If any admission fee is applicable to the support person, notice of the amount payable will be posted and provided in advance.

5.2.7. Assistive Devices
