

Notice of Construction

Caesarea Pavement Preservation

July 2022

The Township of Scugog has contracted Superior Road Products to apply preservation seal to multiple roads within Caesarea. These roads include; Marina Drive, Heron Street, Rowan Avenue, Park Street, Lake View Avenue, Center Street, Pleasant View Avenue, 42nd Street, Pine Street, First Street, Marina Drive, Angle Street, Putsey Drive, Jack Rabbit Run and Williams Point Road. Weather permitting, this work is anticipated to begin Monday, July 18 and be completed within two days.

This in-depth preservative seal will enhance the performance of your asphalt street thereby lowering lifecycle service costs.

Please Note:

1. You may experience a short interruption of access to your driveway while equipment passes your frontage (any crew member can assist you).
2. Please observe all signs & flag person's directions.
3. Sand cover will be swept up within one or two days after sealing (weather permitting).
4. Use **CAUTION** when driving on loose sand.
5. Drive **Slowly** (5 km/hr) if you accidentally enter a freshly treated area that has not been sanded. Sealer can be removed from a vehicle with a pressure washer and de-greaser soap.
6. Keep children and pets out of treated areas to avoid tracking into houses. Material tracked onto driveways will weather off within a few weeks.

This is an environmentally responsible cost-effective pavement preservation process that has a 40+ year proven record of performance. **Superior Road Products 1-866-772-2224**
