

Notice of Construction McLaughlin Road Rehabilitation

May 2021

The Township of Scugog has contracted Dufferin Construction to rehabilitate McLaughlin Road between Highway 7A and Edgerton Road. They will be beginning in May and expected to be completed by the beginning of July, weather permitting. A final application of Slurry Seal will be completed in September. The work will include removal of the existing surface, new surface treatment or asphalt, seeding, and general boulevard restorations. Driveways will be reinstated in kind upon completion of the project.

During the construction period, the road will be restricted to one lane of traffic as required. Access will be maintained to residences throughout construction with minor interruptions as equipment and processes pass your frontage.

If your driveway culvert is to be replaced as part of the project, the contractor will contact you ahead of replacing your culvert to ensure any vehicles are moved accordingly. If there is no answer at the door, they will commence with the work.

Project updates, traffic routes, and other pertinent information will be posted on the Township's website under *Township Office, Current Projects, Road Construction Projects* and *Live and Play, Traffic Watch Map*. Additionally, you may wish to follow our Facebook page or Twitter account for additional updates.

If you require further information or if you have any questions related to the rehabilitation, please contact:
