

Notice of Construction Cartwright West ¼ Line & Church Street Rehabilitation

May 2022

The Township of Scugog has contracted Miller Paving Limited to rehabilitate Cartwright West ¼ Line between Church Street and Shirley Road and Church Street between Cartwright West ¼ Line and Blackstock. They will start end of May or early June and are expected to be completed by the mid-July, weather permitting. A final application of Slurry Seal will be completed in late August or September. The work will include pulverizing of the existing surface, new surface treatment, and general restorations. Driveways will be reinstated in kind upon completion of the project.

During the construction period, the road will be restricted to one lane of traffic as required. Access will be maintained to residences throughout construction with minor interruptions as equipment and processes pass your frontage.

Project updates, traffic routes, and other pertinent information will be posted on the Township's website under *Township Office*, *Current Projects*, *Road Construction Projects* and *Live and Play, Traffic Watch Map*. Additionally, you may wish to follow our Facebook page or Twitter account for additional updates.

If you require further information or if you have any questions related to the rehabilitation, please contact:
